

ECO-Friendly Global Paint

자연을 보호하고 환경을 보존하는 기업, 환경친화적인 제품으로 고객과 함께합니다. 한번의 거래보다 당신과의 신뢰를 우선합니다. 소중한 관계를 위해 우리는 당신이 원하는 것에 늘 귀 기울입니다. 주영산업에는 당신을 위해 노력하는 사람들이 있습니다.

01

Marine Coating

The next generation marine coatings of HOJIN Paint were functionalized through increasing weather resistance, anticorrosion, durability and upgraded eco friendliness through development of waterborne & solvent free coatings. We provide, with our crew of researchers and technicians with more than 30 years of research experience, highly economical and diverse products taking account of our clients' convenience.

Underwater area | Ballast tank | Cargo holds | Deck house | Topside and deck

02

Heavy Duty Coating

Providing the best protective coating system, we, HOJIN Paint, make great efforts to reduce maintenance costs of our clients through protection of structures which are under corrosion environment.

Power generation | Bridge | Water/waste treatment facility | Chemical plant | Infrastructure | Tank/Container

Architecture & ECO-Coating

The architecture coatings of HOJIN Paint, going beyond the simple protective function of constructions materials, satisfies demanded color needs and various functions such as sound proofing, fire protection, antibacterial and we also provide waterborne & solvent free coatings that is suitable for our clients' environment friendly needs.

Interior & exterior coating | Steel structure | Drinking & fresh water tank | Flooring & waterproof coating | Traffic marking coating | Anticorrosion primer | Fire proof & insulation coating | Sports facilities | KS coating | Waterborne & solvent free coating | High solid coating | Non-skid coating

Industrial Coating

The Industrial coatings of HOJIN Paint provide the best protective & functional coating system which can be applicable to the diverse materials like every kind of machinery, heavy vehicles, facilities and products.

General Industries | Plastic | Nonferrous metal | Plating surface | Functional coating | High weather resistant coating.

05

Military Coating

We produce and supply a wide range of high performance coatings suitable for various military equipments such as military camouflage coatings, armored vehicles, fighter planes, etc. that meet the specifications of MIL Spec, TT, etc.

Military combat | including ground | aviation | munitions and related support equipment for its ability to withstand the harsh chemicals used in the decontamination process.

PRODUCTS	MIL SPEC.	APPLICATION
Polyurethane camouflage coating	MIL-C-46168	Chemical agent resistance
Epoxy primer coating	MIL-P-53022	Lead and chromate-free anti-corrosive primer
Epoxy high solid primer coating	MIL-P-23377	Anti-chemical and anti-corrosive primer
Polyurethane aviation coating	MIL-C-83286	Two-component aliphatic isocyanate urethane suitable for external application of external aviation equipment
Wash primer	DOD-P-15328	Pretreatment of metals or nonferrous metals primer
Anti-slip epoxy coatings	MIL-PRF-24667	Anti-slip systems applied to ships, flying, hangar decks
Bastomeric Polyurethane coatings	MIL-PRF-24613	Deck covering materials interior cosmetic polymeric

NO.	PRODUCT	STATEMENT	
1.	JINPOXY	Epoxy coatings for high, middle and low temperatures with excellent anti-corrosive effect and excellent adhesion to various materials in extreme corrosive environments.	
2.	JINTHANE	High weatherability urethane paint with excellent durability in exposed areas.	
3.	JINPRO SPC AF	Tin-free SPC antifouling paint with excellent antifouling performance.	
4.	JINVILAC	Vinyl resin paint with excellent durability and flexibility	
5.	JINNET AF	Antifouling paint for fishing net	
6.	JINRUB	Chlorinated rubber-based paint with excellent rust resistance and weatherability	
7.	JUPOTAR	De-Epoxy coatings having excellent rust resistance, flame resistance and water resistance	
8.	JINPOCHEM	Chemical resistant phenol / epoxy coatings resistant to various chemicals	
9.	JUNOZINC	Highly rust-resistant inorganic latex paint	
10.	JINMEL	Natural dry type alkyd paint with excellent workability and economic efficiency	
11.	JINTHERM	200, 300, 400, 500, 600, 700, 800 ℃ High temperature resistant silicone heat-resistant paint	
12.	JINWELD SP	Mineral zinc-molybdate for high-speed welding shop Primer coating	
13.	CERAMOND	Excellent rustproof and environmentally friendly ceramic paint	
14.	JINPOXY NON-SKID	anti-skid functional coating	
15.	JINSTOP	Quick-drying type anti-skid coating paint	
16.	JUPOZINC	Zinc-rich type epoxy paint with excellent hearing power	
17.	JINTUMEN	Bituminous base paint with excellent water resistance, salt water resistance and soundproofing	
18.	JINCERA	Excellent corrosion resistance, flame retardancy and high weatherability	
19.	JUPOMASTIC	The coating is very hard and resistant to water and salt.	
20.	ACONTIGHT	Thermoplastic acrylic weather-resistant paint applied to the top, middle, and bottom of containers	
21.	JINPOXY ESF	Dyestuff formulated epoxy paint	
22.	JINPOXY FLOOR	Solvent type / Dance type Epoxy flooring	
23.	JINRANE	Quick-drying paint for bicycles with excellent durability	
24.	JINFLUON	Super weather-resistant fluororesin paint	
25.	JINSILVER	Excellent anti-corrosive paint with silver color	
26	CERACOOL	Ceramic based heat insulation / heat insulation paint	
27.	JINQUA	Eco-friendly water-soluble natural drying paint	
28.	JINQUAMEL	Environment-friendly water-soluble modified acrylic resin coating	
29.	KS COATING	Various KS paints such as road markings and oil-based paints	
30.	JINTER COMPOUND	Excellent performance wire socket compound.	
31.	JINPOLYUREA	Eco-friendly waterproof paint
