## The difference between a typical 3D picture frame and MaruAra Reindeer Moss 3D frame

The 3D frame we usually know is a three dimensional frame that places a holographic images that looks like a three dimensional objects or just pops up on one side. Also usual 3D frame can not see through from back side and back side of 3D frame is mostly clogged.

However, our 3D frame is different from the usual 3D frame that we often talk about. You can also see through on the front, right, left and back Side and you can put it on your desk or hang it on the wall if you want. Our products are Handmade by technicians.

## What is Reindeer Moss?

Reindeer Moss was made by absorbing minerals and natural pigments based on the natural moss of the polar region and semi-permanent natural moss plant with air purification and flame retardant.

Reindeer Moss is a moss plant that absorbs harmful substances such as fine dust floating in the air and cleans by itself and also acts as a humidifier, dehumidifier and smell. Also it is a fire resistant Moss plant, so you can put in under the light.

Reindeer Moss(Cladonia Stellaris)

Reindeer Moss(Cladonia Stellaris)

## Advantages of Reindeer Moss

### A. Air Filtering Plants

Reindeer Moss helps health by absorbing and purifying harmful substances floating in the air.

Reindeer Moss can be excellent in residential spaces, children's rooms, smelly toilets and restaurants and it will reduce stress, noise pollution, eye fatigue, and air pollution that you live in. Reindeer Moss is excellent at purifying harmful substances in the air of the house, such as purifying the atopy, the Sick House Syndrome, the smell of cigarette and give us good air.

### Air Purification Test

Time Elapsed	Ammonia ppm		Acetaldehyde ppm		Acetic Acid ppm	
	Test Chamber Empty	Test Chamber Scandia Moss	Test Chamber Empty	Test Chamber Scandia Moss	Test Chamber Empty	Test Chamber Scandia Moss
	32	30	12	11	12	9
5 Minutes	29	4	12	3	10	3
10 Minutes	28	1	12	2	9	3
30 Minutes	25	< 1	12	1	9	2.5
Reduction rate of particles (ppm) after30minutes	96.70%		90.9%		72.2%	
	$n = \frac{n1 * + 2(n2) + n3}{4} = 88\%$					
<div><div>n : Mean reduction rate (%)</div><div>n1 : Ammonia reduction rate (%)</div><div>n2 : Acetaldehyde reduction rate (%)</div><div>n3 : Acetic Acid reduction rate (%)</div><div>*For the purpose of obtaining data, Ammonia removal rate of 96.7% was used.</div></div>						

As indicated by the data chart, over 60% of Ammonia, Acetaldehyde & Acetic Acid from tobacco smoke were removed 5 minutes into the test. According to the Japan Electrical Manufactures Association standard, the air cleaner qualifies as having a deodorizing performance if over 50% of odors are removed within 30 minutes of test started. The evaluation of this test result based on air cleaner performance concludes that the deodorizing performance results of Scandia Moss shows over 88% removal rate within 30 minutes.

### Noise Test

NRC 0.96 at 5000MHz. Scandia Moss performs well in lowering decibel levels of an interior environment. Scandia Moss excels in toning down unwanted high frequency sounds and calms the Atmosphere for a Relaxing experience. How about imagining to listen to the music in your living room that is made with Scandia Moss? For sound transmission reduction, Scandia Moss SM Panels achieved an absorption coefficient of 0.91 at NRC at 5000 MHz. (TEST by : Korea Architectural Test Laboratory)

Music Studio

## Advantages of Reindeer Moss

### C. Flame Resistance

Reindeer moss is a fire resistance plant. It is a plant that does not burn, and as a test result, it showed a strong appearance in the heat. It is a plant that has passed the Fire Resistance test, so it may be placed next to the lighting fixtures.

### Fire Safety Test

When tested to NS-EN ISO 11925-2:2010, Scandia Moss SM Panel achieved the following fire performance results.

Ignition [Yes/No]	No
Flames reach 150 mm-mark [Yes/No] [seconds]	No / --
Length of damaged area [mm]	53.3
Ignition of filter paper [Yes/No]	No

Scandia Moss has been tested for Fire Safety according to the European safety standard. In combination with Ignition proof Scandia Moss & Aluminum, the SM Panel meets the highest standard in Fire Safety.  
(TEST by : NS-EN ISO 11925-2:2010)

## Type of Reindeer Moss 3 D Frame

**A. Regular plank board:** The pine board is the pine plank. Nowadays, however, we use Indonesian paraserianthes falcata and Chinese paulownia board rather than pine trees. It is easy to process and most of it is completely dry, free of mold and easy to store.

Albija

Paulownia

**B. Ginkgo Frame:** Ginkgo is the only "fossil plant" that has survived the ice age of 300 million years ago. In Japan, the only living creature that survived the atomic bombing of Japan was the ginkgo tree, which is called "the tree that swallows the fire." Ginkgo also emit 5-6 times more oxygen than other trees and it capable of cleaning air pollution, it also has the ability to purify soil pollution, water pollution, and even heavy metal pollution. Also, the ginkgo tree emit has Antimicrobial and antimicrobial action so there are no bugs for ginkgo tree.

Ginkgo

**C. Larch Frame:** Larch is the pine tree that leaves the leaves. In addition to the activity of refreshing mood, there are many terpenes such as cypress tree which suppresses the reproduction of ticks and eliminates odor. In recent years, it has been reported that deodorizing effect on odor substances such as ammonia, sulfurous acid gas, nitrogen dioxide, acetic acid and the like is removed by removing formaldehyde which is a harmful substance which is attracting attention as a factor of sick house syndrome. Children with severe atrophy have a cure and live in rural school that made by yellow soil, cypress tree, and larch. Larch releases a large amount of phytoncide, such as cypress tree.

Larch

**D. Cypress Tree:** Cypress tree is an evergreen tree native to Japan. It is 30 ~ 40m in height, 1 ~ 2m in width, the bark is reddish brown, and small needle-shaped leaves are densely grown on branches. Small flowers bloom on branches in spring, green cones ripen in red in October. Cone is 1cm in diameter, 7 ~ 9 shields in scales, leaves and timber contain 1% essential oil, and is also used medicinally. The wood has a large amount of natural antimicrobial substance called phytoncide, so it has excellent sterilizing effect on the air and it has strong water resistance. As it is known that phytoncide contained in the cypress tree is effective for the treatment of atopy, various daily necessities such as pillows, wallpaper, chopping boards, and toys are widely used.

Cypress(Hinoki)

## Multi Reindeer Moss 3D Frame

We have two kind of Special 3D Frame.

# Herbaflorium

Herbaflorium is Interior items that a compound word of Herbarium and Flower. The Preserved flower in mineral oil is an interior accessory that moves smoothly whenever the bottle moves and creating a mysterious atmosphere. A typical pre-preserved floor has a retention period of 1 to 5 years, but the retention period of Herbaflorium contained in a sealed glass jar is more than 5 years.

## Precautions for Herbaflorium

1. The solution of the product is a refined mineral oil that is colorless, odorless and tasteless, which is harmless to the human body, but is not edible, and wash when it comes to skin.
2. Leave it out of reach of infants, children and pets and be careful not to damage it.
3. Do not store Herbaflorium near fire, as it may cause distortion or fire if it is placed next to or in a hot place.
4. Over time, the colors of the reserved flower may change depending on the storage status, etc.
5. Be careful not to expose yourself to direct sunlight for too long. The color of the flowers can change rapidly.

Skin

## Only Nature Spout Pouch Skin Care

The main ingredients of **Only Nature Skin** are Hyaluronic Acid + Asiatic-pennywort.

Only Nature Skin provides moisture the rough skin by being absorbed and the skin will get moist and healthy after intensive care.

Moisturizing toner which is containing extracts of Peppermint, Panthenol, and AHA removes dead skin cells and controls oily skin and moisture balance.

+

### The efficacy of Hyaluronic Acid (moisturizing)

Hyaluronic acid is one of the essential substances in human body.

Also, studies have shown that the power to pull is 1,000 times more moisture than it actually does.

Another effect is to prevent wrinkles and good skin care.

Also, it can maintain the electrolyte in the skin, reduce the aging of the skin, and prevent cells from oxidizing.

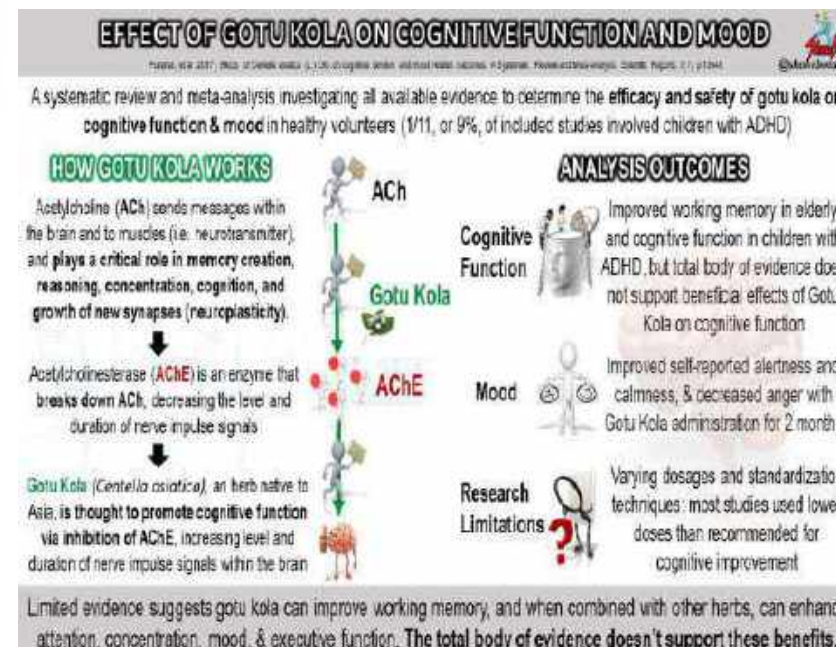

### PRODUCT INFO

Please check Hyaluronic Acid's color, formulations and feel.

### The efficacy Asiatic-pennywort(Botanical Name: Centella asiatica (L.) Urb or Gotu Kola)

Asiatic-pennywort is a plant that lives in the clean-up area of Madagascar Island in the Indian Ocean. It is named "disease-treating grass", a plant that heals diseases in Korea. This Asiatic-pennywort is also called Tiger Grass. The reason is that if a tiger hurt their body while hunting, they rolls around in the Asiatic-pennywort field to heal for their wounds. It is used as a material for Madecassol because this grass has excellent efficacy in skin regeneration, anti-inflammation, antibacterial and wound healing. Above all, it is a safe ingredient with almost no side effects. So it is safe to use by people with sensitive skin.

**NEW**  
**Sleeping Pack**

Skin keratin is arranged and smooth finish

Protect cells from harmful oxygen

# One Percent Pozzolan Base Spout Pouch Skin Care

## What is Pozzolan?

Nature's best gift, the essential mineral, "POZZOLAN". Pozzolan is a white-era igneous rock named after the village of Pozoriin Italy. It is only produced in five countries around the world (South Korea, India, Italy, USA, Malaysia). Among them, the distribution in Korea is proven to be the best.

## Effect of Pozzolan

Pozzolan is a rare mineral of volcanic rock that has high organic matter, minerals, and far-infrared radiation. In particular, it is found to be certified as having high antibacterial benefits, along with deodorization, and detoxification. It is 187 times more effective than Hwangto, a well-known eco-friendly material, as it has been proven by Hwangto researchers to have excellent efficacy. It has been studied as a mysterious, eco-friendly material.

## Effects of Far-infrared radiation

Far-Infrared Rays are also called the most beneficial rays of our lives. Far-Infrared Rays are invisible waves of energy that have the ability to penetrate all layers of the human physical body, penetrating into the innermost regions of the tissues, muscles and bone.

## Effects on skin

Prevents aging / Improves collagen and elastin / Helps heal injuries

Pozzolan Ingredient & Characteristic

Recommended for those who are suffering dry and dull skin.

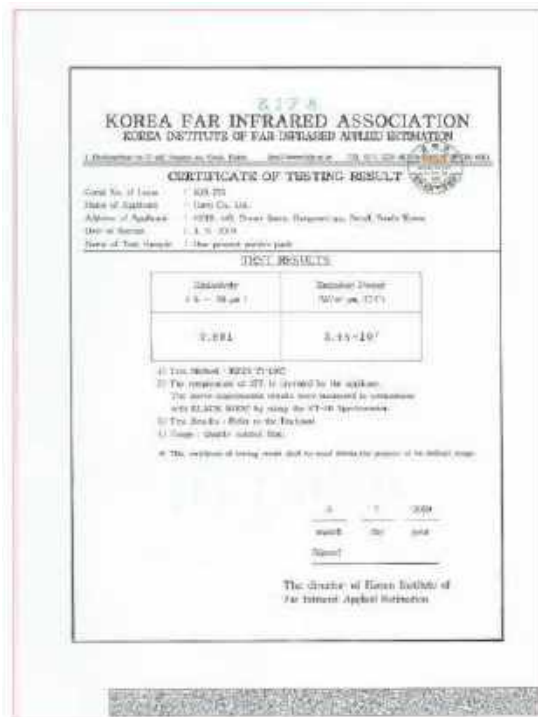

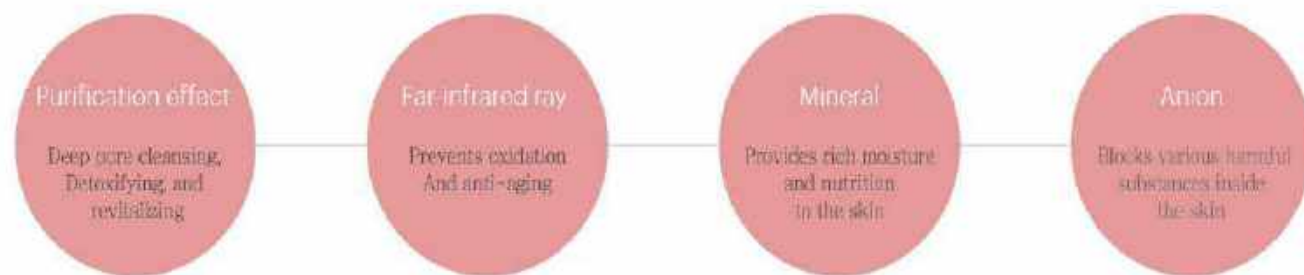

# One Percent - Pumice Pack

## ONE PERCENT "volcanic mineral"

ONE PERCENT Pumice pack contains pozzolan, nature's beautiful gift, as well as 24 natural extracts that will deeply cleanse and hydrate the skin, creating clear and supple skin.

Also, 1% pumice pack removes demodex, tiny mites that feed off the hair follicles in your skin, that lives on the skin. This pack will cleanse and tighten your skin without irritation.

### Far-infrared Radiation Test Report

This is a test report that says about 90% of far-infrared radiation comes from pumice pack.

The weather, temperature and wind of the day accumulated for tens of millions a year, giving nature gift "Pozzolan".

ONE PERCENT pumice pack contains pozzolan and removes waste and hair follicles to make your face look clear and healthy.

The result of clinical trials of about 70 people, including students and housewives at Andong University of Information Technology's dermatology department, show 68% to 72% reduction of demodex after using pozzolan pumice pack.

## Hazardous heavy metals **FREE**

Lead Pb undetected  
Cadmium Cd undetected  
Mercury Hg undetected

Unexpectedly, the "heavy metal" exists in everyday of our lives. Heavy metals break down our immune system and can cause various diseases.

But 1% Pumice Pack is safe and reliable, **FREE** of hazardous heavy metal.

# One Percent – Mask Pack

## Product

### ONE PERCENT Moisturizing Mask pack

ONE PERCENT Moisturizing Mask Pack contains pozzolan, earth's natural, as well as 24 natural extracts that will deeply cleanse and hydrate skin, creating clear and supple skin.

#### Moisturizing

It helps dry skin to keep moisture.

#### Protects Skin barrier

The pozzolan in the sheet cleanses away the dead skin cells; helps for nutrient absorption through unclogged pores.

#### Controls pH-balance

The natural ingredients absorb into the skin, and balance skin pH for a calmer, healthier skin.

#### Smooth Skin texture

Centella asiatica extract protects rough skin texture and helps to keep skin pure and soft.

## ONE PERCENT Moisturizing Mask Pack

Volcanic pumice particles in the sheet makes your skin healthy and removes away the dead skin cells.

We added speciality by embedding pozzolan onto a natural bamboo fabric.

- Far-infrared radiation and anionic emissions
- natural mineral component
- Pozzolan's deodorization function soothes the skin by controlling hair follicles.

## ONE PERCENT Moisturizing Mask Pack

### Natural Mask Sheet

We used a natural cellulose mask sheet instead of chemical fabrics so that sensitive people can use it safely. As the sheet dries, it gently pulls the skin and gives it a tightening effect.

### EWG Green grade

Use only EWG Green grade ingredients. FREE of harmful ingredients

### Bright complexion and skin texture care

A serum, which contains centella asiatica extract, camellia sinensis leaf extract, and 10flowers protects skin and helps healthy skin care.

## Botanic PLA Bubble Foam Pad

BOTANIC

How do you remove your make-up?

Generally, you use cleansing foam or cream with pad before wash your face. And you have to rinse with Water for final cleansing.

To do this, you need eye cleansing, facial cleansing, pads, water and a lot of time.

Especially in winter, it takes more time because warm water is needed.

But you can solve all of this at once.

**From now on, remove your make-up very easily by this pad.**

Use “**Botanic PLA Bubble Foam Pad**”.

**You just need this pad and water for cleansing or removing your make-up.**

[Click for Video](#)

The combination of natural vegetable cleansing ingredients and PLA lactic acid components gently removes keratin and wastes from the skin, creating a smooth, radiant skin.

- How to use -

1. Moisten a piece of Dry Type Peeling Pad with water.
2. Please rub enough to get a lot of bubble from the wet pad..
3. Wipe the entire face gently by using the embossed side.
4. Wipe the entire face again with the backside gauze.
5. Rinse thoroughly with ionized water to finish.

# MaruAra Baby Swaddle

According to one survey, 85% of parents' parenting stress is a baby's peevishness before sleeping. There are two reasons for the baby to do peevishness before sleeping. The first is baby has a growing pains for adapt to the world and it's very common for a baby to take 20 minutes to reach deep sleep. The second is, the fetus's hands are always near their mouth for practices sucking mother's milk. A baby's sleeping position is called a butterfly sleep. (baby sleep with stretched arms) A baby who has been in this position for 10 months in her mom's uterus, so baby's most comfortable sleeping position in this. MaruAra swaddle can be used from birth and has proven to help your baby sleep better and for longer. Wings Style maintains baby's natural and preferred "arms up" sleeping position. The dual zip makes it simple for you to change your child's nappy whilst not removing the swaddle completely. Also this MaruAra swaddle made by 100% Organic cotton. Organic cotton is produce without using pesticides or chemical fertilizers in farmland where pesticides and chemical fertilizers are not used for 3 years.

# Pine Scent Mosquito Net

The scent of pine needles, eucalyptus, and cinnamon are the ones that mosquitoes dislike in particular. Mosquito net is a mesh-shaped polyester woven in a dense grid structure to prevent insect infestation and avoid contact. The pine-leaf-flavored mosquito net has both the scent that mosquitoes avoid and the effects of insect repellent nets.

## 1 An Iron Ring

The mosquito net is secured by a string. The rings, which play an important role, were made of strong steel and attached.

## 2 Bottom of Net

Convenient for the mosquito nets and insect repellent effect, the hem has been stitched neatly. Colors may differ from the image in the process.

## 3 Mosquito net

It's safer and more robust with dense screens for perfect insect repellency from mosquitoes or smaller pests.

## 4 Weight

The mosquito nets were plated with a weight made of iron so that they did not float on the floor and fixed to the hem. Weight allows the mosquito net to minimize wind blowing.

## 5 Pine Scent

A phytoncide avoiding mosquitoes is kept in the mosquito net to give a first-order blocking effect. In the mosquito net, you can feel the scent of the natural forest, so you can relax and relax. The pine scent is harmless to human body and can be used healthily. Mosquitoes avoid the vicinity of mosquito nets, so you can block the access of mosquitoes more.
