*Women's beauty and confidence!
Always confident and confident!*

It is a magic product that you get addicted to as you use it.

Still taking only a shower?

If you really care about the cleanliness of what's important to you,
Now, let's manage to the inside.

Why you should use YES GOOD female cleanser

A hypoallergenic female cleanser that keeps the pH balance in a slightly acidic state.

PH of the most healthy and ideal skin: **weak acidity**

Excessive stress and accumulation of fatigue destroy the balance of the PH of the vulva, thus it is increasing the incidence of vaginitis.

PH should be maintained slightly acidic, which prevent the growth of harmful bacteria and maintain a healthy condition.

YES GOOD female cleanser helps to maintain the PH balance of the female vulvar environment with a weak acidity. It also helps create an environment which the beneficial bacteria in the vulva can multiply and help maintain healthy skin in sensitive areas.
