Natural neutral soap

Research and Manufacturing

PROBUBBLY  
NATURAL 100%

## CEO Message

Thank you very much for your interest in the Nonghyup Red Ginseng Products and the Premium Natural Neutral Soap Probubbly products.

In a rapidly changing world market, new challenges and innovations are required not only for companies but also individuals and nations. PROPPE Co., Ltd. is leading the trend of this change and strives to become a leader in environmentally friendly natural soap future technology.

First of all, the PROPPE products are neutral products that focuses on balance between oily skin and dry skin. It maintains clean and good skin without troubles. In order to show a new type of innovative product that combines high-concentration natural materials and blending technology, we are concentrating our efforts on technology development and we are fully committed to securing technology independence for major source technologies.

In addition, we will develop technology competitiveness to the level that can lead the global market with eco-friendly core products, such as natural neutral soap, natural neutral flavor, and natural neutral water boiler. The Probubbly products that use premium natural ingredients continue to advance into the global market and promise to realize the ultimate value pursued by "probing the pleasure of clean skin, happiness after cleansing, and environmentally friendly soap".

The 21st century, which is now in front of us, is a place of unlimited opportunity. In the future, PROPPE Co., Ltd. is a strong company that does not suffer any difficulties due to craftsmanship that insists on only pure natural products, and creates dreams and hopes with customers through cooperation with company that is full of creativity and vitality with constant challenge I will do my best to ensure that comes true.

PROPPE Co., Ltd. is looking forward to growing into a leading company specialized in natural soap, leading the 21st century, and please send more love and encouragement in the future. Thank you.

Chungsoo Lee/CEO

## Certificate

Trademark Registration Certificate "PROBUBBLY"

## Products

### Features of natural neutral soap

Natural neutral soap is an ecological product that can be used for a long time because it is made of vegetable medicinal materials and can not be retreated. (PH 4.5 ~ 5.5) and the closest hydrogen ion concentration (pH 7 ~ 7.99) with neutral soap, you can supply nutrients to your skin more effectively to maintain skin elasticity and excellent moisturizing effect, and keep your skin smooth after washing.

Natural soap containing 20% of natural fermentation and herbal extracts. It is a neutral soap that can contribute to improvement of atopy and acne.

### Additive Ingredients - Vegetable raw materials

#### EGGPLANT

The lupeol component extracted from eggplants greatly reduces sebum production and inflammation, and has the best effect in terms of anti-lipid, anti-inflammation, antibacterial and anti-toxicity issues (Report of the Dept. of Dermatology, Seoul National University Hospital).

#### HONEY

It contains a vitamin B component (blood circulation, anti-aging, skin beauty, etc.). It is also excellent in soothing skin troubles.

#### RED GINSENG Extract

Because it has a lot of saponin ingredients, it increases the skin immunity and prevents aging of the skin (freckles and wrinkles). It has excellent efficacy in skin protection and moisturizing.

#### Eoseongcho (*Houttuynia cordata*)

It contains a vitamin B component (blood circulation, anti-aging, skin beauty, etc.). It is also excellent in soothing skin troubles.

#### YUCCA Extract

It is a natural substance obtained by extracting yucca roots with purified water. It has an antiseptic effect and a weak acidity. It is effective in preventing skin aging and hair loss.

#### LEMON/LAVENDER

It contains a vitamin B component (blood circulation, anti-aging, skin beauty, etc.). It is also excellent in soothing skin troubles. It helps to regain skin health and give pore-astringent action and resilient skin care. It controls sebum secretion and helps to improve and manage oily and problematic skin.

#### Green Tea

It has an active-oxygen removal effect and aging-inhibitory effect. Rich in catechin ingredient, it removes various toxins and wastes that damage the skin. Its abundant vitamins A and B2 calms the skin, and its vitamin C and tocopherol help to whiten the skin.

#### Orange Oil

It helps to make dull skin tone bright and fresh. As it is used in aromatherapy, it relieves insomnia and tension. It helps to relieve depression caused by pregnancy.

## Why? Why do I need to use Neutral Soap?

Have you heard of the **Demodex folliculorum** also known as the **follicle mite**?

The **Demodex folliculorum** is a mite that feasts on the sebum secreted from the pores causing various skin troubles such as dermatitis, acne and pore enlargement.

The **Demodex folliculorum** prefers the alkaline environment and can proliferate in the alkaline environment.

How do I get rid of the **Demodex folliculorum**, the main cause of my skin troubles?

Since the **Demodex folliculorum** is active and proliferates in the alkaline environment, it is recommended to keep pH-neutral for the health of the skin.

VS

Alkaline soap (Normal soap) PH8~PH10	Natural neutral soap (Probubbly) PH7~PH7.9	Mild acidic soap PH4.5~PH6.5
<p>Excellent foaming and cleansing power Effective in dirt removal</p> <p>Creating the best inhabitation condition for <b>Demodex folliculorum</b></p> <p>Causing skin dryness and aging</p> <p>Causing various skin troubles</p> <p>Containing various synthetic materials and chemical additives (Synthetic preservatives, synthetic emulsifiers, synthetic fragrances)</p> <p>Containing a lot of mineral oil (added with surfactant)</p>	<p>Excellent foaming and cleansing power Made with differentiated technology that keeps the soap from softening</p> <p>Creating the tough inhabitation condition for <b>Demodex folliculorum</b></p> <p>Preventing skin aging</p> <p>Preventing various skin troubles</p> <p>Containing natural vegetable essential oils (free of preservatives and white fermented)</p> <p>Organic (Containing natural ingredients)</p>	<p>Weak forming power</p> <p>Creating the tough inhabitation condition for <b>Demodex folliculorum</b></p> <p>Skin sebum remained in the skin</p> <p>Getting soft easily</p>

**Will you still use alkaline or mild acidic soap?**

Will you still use alkaline soap that allows the inhabitation of **Demodex folliculorum**?

Will you still use mild acidic soap that allows the sebum to remain in the skin?

Natural and vegetable neutral soap that is the closest to the skin! Protect your skin with Probubbly the patented and proven neutral soap!

**The patented neutral soap!** Probubbly makes it different for you

**Reasons for 100% re-purchase rate**

Probubbly's differentiated neutral soap

It can be used 3 - 4 times longer than ordinary soaps by complementing the disadvantages of the conventional natural soap without using any curing agent, thanks to the differentiated technology.

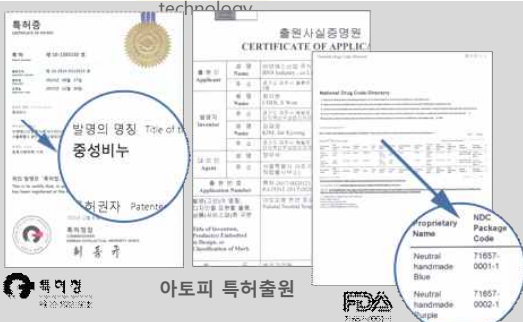

All Probubbly's products use more than 20% of natural fermented herbal extracts to maximize the nourishing effect on the skin.

A neutral soap that minimizes irritation to the skin. Excellent cleansing power leaving no pulling sensation after wash. Feel the difference with continuous use.

The neutral soap made with fermented natural vegetable by Probubbly's patented technology! The technology that puts the skin first!

The only **patented neutral soap** that keeps pH 7.0 - 7.9 in Korea. Probubbly is a company that manufactures soaps at its factory, which are **differentiated from ordinary soap products** that anyone can make, through its research and development capability.

## Q&A on Probubbly Neutral Soap

### Q Why do I need to use Probubbly Neutral Soap?

- A
- Neutral Soap is made with **more than 20% of natural herbal extract** in liquid form which makes up unique features of each soap type generating a protection film on the skin to moisturize and soften. It has excellent cleansing and moisturizing effects that last even after washing.
  - Because Probubbly is **neutral** soap, it has outstanding effects of **antibacterial and sterilization, suppresses the growth of Demodex folliculorum, and improves problematic skin**.
  - Each type of soap comes in different colors, not because of artificial colors but depending on the **natural additives**. Without using any chemical curing agent, it **does not soften** on the bathtub even without a soap tray thanks to the Company's **patented technology**.
  - It does not contain any chemical additive, so there is no side effect on the **allergic** or **sensitive** skin.

### Q Can I use it on my body as well as on my face?

- A
- Probubbly Natural Soap can be used on the entire body from head to toe. Especially when used in a shower, it can keep the skin smooth and healthy with rich foam instead of using body wash products containing chemical ingredients.

### Q Is it true that natural soaps get soft easily?

- A
- Probubbly Natural Soap does not get soft like other natural soaps as it was developed through research and development for a long time.

### Q Is it useful for allergic or dry skin?

- A
- Human skin is commonly acidic with a pH range of 4.5 - 6.5, and it prefers neutral soap at a concentration most suitable for the skin. Probubbly Natural Soap prevents significantly improves the allergic or dry skin of the elderly as it moisturizes the skin and prevents skin troubles.

### Q What exactly are the benefits of a neutral soap?

- A
- Natural neutral soap is the most suitable soap for the skin. It is a beauty soap that helps to whiten, improves hair condition, atopic and acne skin. It also suppresses itching and the growth of Demodex folliculorum. You can feel the effectiveness and the skin improvement with a continuous use

### Q Is there something that I need to know about natural soap?

- A
- As the Product contains more than 20% of natural ingredients that are aged and fermented, you may find the soap surface whitened. It is not an alteration but a phenomenon that can occur due to the nature of natural ingredients. It is safe to use as there is no problem with quality or stability.

### Q The color and fragrance of the soap are different from the one I bought before.

- A
- Probubbly Neutral Soap is handmade. The shape, color, and fragrance of the same soap may be slightly different depending on the time of production. (For example, there may be differences in color and aroma of the soap because the color and aroma of winter Eoseongcho and summer Eoseongcho used for the soap are different.)
