

# Software, Beyond Expectations!

## e.Form Mobile Contract Solution

e.Form, a mobile contract solution, materializes a paperless office by making all the traditional business processes from promotion, consulting, contracting to data entry available in tablets and phones to speed up work processes and boost sales at the same time.

*"The solution removed almost all portions of the additional post-contract task of registering contracts in the system, and made our sales people more satisfied with their work."*

*- KyoWon, a local customer*
