GATE-eye

# GATE-eye

## Company Profile

We are making the front door more luxurious and safer by developing several products for the door.

	<b>Company</b>	MSCL CO., LTD.
	<b>CEO</b>	Mr. Jesik In
	<b>Address</b>	69-8, Yangjinam-ro, Bucheon-si, Gyeonggi-do, Korea, 14788
	<b>Tel.</b>	+82-32-661-3220
	<b>Products</b>	Digital lock, reinforcement lock, door stopper, etc.

The background of the slide features several silver-colored die casting parts. In the top left is a long, thin component with multiple mounting holes. In the top right is a smaller rectangular part with a "GUT" label. In the bottom right is a larger, angled rectangular part with a circular hole. The background is dark blue with a faint world map and circuit board patterns.

## Company Profile

Gate-eye products are uniquely  
made in our own die casting  
plant.

# Digital Locks

Gate-eye digital locks offer a wide range of products for all door types. When we design our digital locks, we pay attention to durability and weather-resistance more than any other company.
