# >> Characteristics of the company' products

## 1 Manufacturing dried laver (self-development) production

- The company's unique know-how as a raw material produced by sole contract redistribution in Boryeong (Daecheon) area of South Chungcheong Province, which is a clean area. The dried seaweed is produced with (traditional produced method with rock seaweed) , so the taste and the aromatic flavor are excellent.

## 2 Equipped In-house development facility of the roasting machine

- The stove is baked twice by using an infrared ray heater (temperature using charcoal principle) for crispy and savory laver.

## 3 Equipped with the cold temperature storage facility for dried lave

- After production of the laver, we keep the material of seaweed for freshness in the frozen warehouse

## 4 Preparing sesame oil manufacturing facilities

- Our seasoned and roasted seaweeds have natural aromatic and savory flavor. Because we squeezed sesame oil and supplying it with mixed corn oil to all process line.

## 5 Korean seaweed exporting leading company

- We are currently exporting to Asia (Japan, Taiwan, Hong Kong, Philippines, Indonesia, Vietnam), USA, Canada. As follow the exporting, We received awards of \$1 million export tower and the President's medal of merit.

Our company awarded the Bronze Tower Industrial medal and currently supplying to the Lotte Duty-Free Shop, Nong-hyup mart, GS mart and etc.

We remove impurities by metal detector, and acquired the HACCP certificate to keep the food safety.
