## Product Features

### Eco Product - Reliable material

#### Bamboo Fabric

##### Reliable material in bamboo pulp Extracted bamboo fabric

Bamboo fabric is natural regenerated fiber from bamboo pulp  
It is a recycled fiber made from natural materials extracted from new materials  
Antibacterial, deodorant, breathable, absorbent, soft touch It is a characteristic fiber,  
(Kind of fiber, viscose rayon + regenerated fiber)

#### Antibacterial

It is highly resistant to bacterial growth caused by perspiration and waste products, and has excellent antibacterial properties.

#### Deodorizing Effect

It is excellent in deodorizing compared to general surface.

#### Absorbency, dryness

Because of the bamboo texture, it absorbs and diffuses more than ordinary cotton, so it can maintain comfort.

#### Touch

There is no stimulation with soft touch.

#### Bamboo Fabric

#### Organic Fabric

Organic cotton is suitable for sensitive baby skin.  
Careful attention to the baby's mouth and lips can be used safely for babies with atopic and sensitive skin.
