

SINCE 1983

SUPER QUALI CAST (INDIA) PVT. LTD.

Excellence in Critical Components

Precision Investment Casting

Company Brief

Super Quali Cast (INDIA) Pvt. Ltd. based in the city of Rajkot is a vision driven iconic manufacturer and exporter of premium quality of investment castings by lost wax process. We are a development partner and producer of high-quality precision castings in Stainless Steel, Alloy Steel, Carbon Steel, Super Alloys, Duplex Steel of the finest quality . We design, manufacture, export and also undertake contract manufacturing. Our team of experts undertake casting orders both ferrous and non-ferrous as per the initial layout specifications and design of our valued customers and craft them accordingly.

As a foremost investment casting manufacturer and supplier, we are persistently at the vanguard of the most up to date technological advancement. Our team have dedicated their energy and resources for building a long lasting partnership with our esteemed patrons based on quality, fair pricing and trust in presentation. Our strength stems from our dedicated Research and Development, dedication to responsible business via quality, productivity, technology, and customer centric focus and above all advanced indigenous manufacturing abilities with latest, sophisticated & ultra modern infrastructure of Machineries, Testing Equipments, Instruments & Facilities to maintain Quality Assurance & Control to a high precision degree of accuracy required in the process, production & development of finest Castings.

Being a reckoned name in the world of investment castings ever since our inception in 1983, we constantly strive in accommodating our present as well as future thereby leading the way towards a brighter future. SQC is located in the Rajkot City well connected by Road, Rail & Air.

SQC Group Future Goals

SQC group will be producing 2400 tons of castings per year with variable metal range like ferrous & non-ferrous material & different casting processes like investment, foam, vacuum, sand & shell moulding castings

SQC group will be doing more than 30% exports of the total share and then will setup a new EOU plant

SQC group will diversify into various businesses like food, construction, plastic, health care, import export, daily necessity products, etc as & when opportunity strikes

SQC group will be exporting products to countries like Germany, United States, United Kingdom, Italy, Spain, Israel, Netherlands, Belgium, France and many other countries around the world

SQC group of companies will be a great place to work and will attract people of various caliber from different areas of the world. SQC people will be loyal to and proud of their company to an unusual degree. They will feel that senior management works for them, not the other way around. We will maintain this spirit, even as we become a 1000 crore, profitable growth company with tens of thousands of people.

SQC group of companies will build a trust for the betterment of education & healthcare of their employee's family and also for society. Accommodation facilities will be made for the company employees with all necessary amenities. SQC group will contribute towards the personal transportation of their employees.

SQC group of companies will be IPO listed by 2030

Super will be a big and trustworthy brand and people would like to be the part of it by either investing in it, using their products or working with them

Big Hairy Audacious Goal

To be Among the Top 5 Foundries of India by Incorporating Great Production Practices of Toyota and Achieve a 1000 Crore Turnover by 2037 by Becoming a Diversified Group Like 3M.

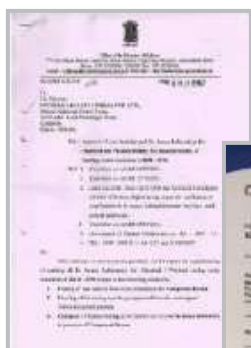

- > Widely spread over 3 acres of land.
- > Futuristic In-house machining facilities.
- > More than 2400 tonnes annual production capacity.
- > Provision for Robotic systems in coating process.
- > Latest Chemical & Mechanical Lab Setup with technologically upgraded measuring instruments.
- > Lean Manufacturing using ERP software for traceability & Semi automation in major production processes for increased efficiency.
- > Wide Range of Various Metals

A Whole New SQC Unit-2
