

GLUCOSAMINE

FOOD SUPPLEMENT WITH GLUCOSAMINE, COENZYME Q10 AND FOLIC ACID

What is Biosana Glucosamine plus?

Biosana Glucosamine plus is a food supplement that complements the Biosana range. The ingredients of Biosana Glucosamine plus include Glucosamine hydrochloride derived from *Aspergillus Niger* (which draws its nutritional resources from maize), coenzyme Q10, folic acid, inulin, modified starch, anti-caking agent silicon dioxide.

What does Biosana Glucosamine plus do for the body?

Glucosamine is an essential component of connective tissues, articular cartilage, joints and tendons. An adequate intake can help preserve joint mobility and protect cartilage. Coenzyme Q10 plays an important role in generating the body's energy. Folic acid is a vitamin which is essential for the formation of blood cells (hematopoiesis) and the development of the neural tube of the foetus.

Biosana Glucosamine plus product:

Biosana Glucosamine plus products are available in tablet form.

What are the benefits of Biosana Glucosamine plus?

The Glucosamine is derived from *Aspergillus Niger* (and is not derived from shellfish). It is suitable for vegetarians and allergy sufferers: Biosana Glucosamine plus contains most natural ingredients and does not contain lactose, gluten, or preservatives. It is therefore also suitable for vegetarians and people with allergies to shellfish. Biosana Glucosamine plus is an excellent supplement to all Biosana mineral salt products. Biosana Glucosamine plus has been produced using non-invasive production methods and sustainable harvesting. It has not been tested on animals, is free from animal ingredients and does not contain genetically modified substances.
