

Siddhapura®
THE SOUND OF TECHNOLOGIES

SIDDHAPURA over the years has developed vast experience and specialization in sheet metal working technology, founded by Shri. Prabhudabhai Siddhapura. Since its inception in **1983**, the founder & promoters have visioned to develop world class machineries with self-driven motivation and engineering. They believe in highest level of workmanship, effectiveness & efficiency in its working at all times. Through this, the company has embarked significant presence in global markets by exporting to Southeast Asia, Africa and Middle East.

Our machines being simplest, precise and cost effective has gained huge repute in the market. The innovative technology has made it quite easy and convenient to operate with programmed machines, with greater versatility, low power consumption, less maintenance and outstanding accuracy. Our machines are renowned for both its finished product quality as well as the aesthetic appearance given to each and every component. The customer prefers SIDDHAPURA because of Cost Benefit Analysis i.e. lower end product cost.

Meet all your tailor made requirements for sheet metal machinery, tools, automated software, etc. from a single source.

ELEHYD *europius*-Series

CNC Synchro Press Brake

≥ 400 Ton

Available

Single : Length – 4000 to 14200 mm | Capacity – 400 to 1500 Ton

Tandem : Length – 4000 to 32400 mm | Capacity – 400 to 12000 Ton

ELEHYD *euro-Series*

CNC Synchro Press Brake

≤ 400 Ton

Available

Single : Length – 3100 to 6200 mm | Capacity – 110 to 450 Ton

Tandem : Length – 4000 to 12400 mm | Capacity – 150 to 900 Ton

ELEHYD *ec*-Series

CNC Synchro Press Brake

≤ 200 Ton

Available

Single : Length – 1250 to 4300 mm | Capacity – 30 to 200 Ton

HYDROpress 207-Series

HYDRObend 204-Series

NC Hydraulic Press Brake

Available

Length – 1250 to 8000 mm | Capacity – 20 to 1000 Ton

PRECicut 20-Series

CNC Hydraulic Shearing

PROcut 207-Series

NC Hydraulic Shearing

SPEEDcut 204-Series

NC Hydraulic Shearing

Available

Length – 1250 to 8000 mm | Thickness – 2 to 30 mm

PREbend 4-Series

4 Roll CNC / PLC Pre Pinch Hydraulic Plate Rolling

PREbend 3-Series

3 Roll CNC / PLC Pre Pinch Hydraulic Plate Rolling

Available

⑭ Length – 1600 to 6100 mm | Rolling Capacity – 6 to 175 mm | Pre Bending Capacity – 4 to 156 mm

HYDROmech-Series

3 Roll Hydro-Mechanical Plate Rolling

R-Series

E-Series

Available

⑆ Length – 1250 to 3000 mm | Rolling Capacity – 3 to 50 mm

ASYprebend 3-Series

Asymmetrical Plate Rolling

Available

Length – 1050 to 3100 mm | Rolling Capacity – 1 to 8 mm

Mec-Series

3 Roll Mechanical Plate Rolling

Available

Length – 1250 to 3000 mm | Rolling Capacity – 3 to 25 mm

SCP-Series

C Frame Power Press

SHP-Series

H Frame Power Press

SPHP-Series

Pneumatic Super Rigid Power Press

Available

Capacity – 3 to 600Ton

SPPB-Series

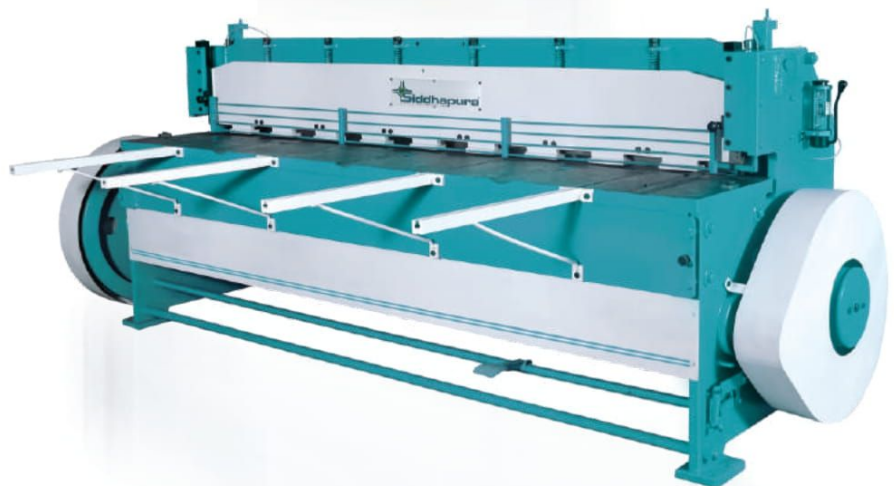

SMPB-Series

Mechanical Pneumatic Press Brake

SUS-Series

Under Crank Shearing

SOS-Series

Over Crank Shearing

Our Other Product Range

H Frame Hydraulic
Workshop Press

C Frame
Hydraulic Press

H Fix Frame Hydraulic Press

Hydraulic Deep Drawing Press

Cross Shaft Press

Plate Straightening & Leveling Machine

Cnc Profile Bending Machine

NC Profile Bending Machine

Hydro Mechanical
Profile Bending Machine

Mechanical Profile
Bending Machine

Hydraulic Iron Worker

Bus Bar Processing
Machine - 3 in 1

Bus Bar Processing Machine - Separate
