

DIVE 200m

Smartphone
Waterproof case

mpac+ Dive allows underwater touch functions up to 40 meters in water. Throw away an action camera or a underwater camera. Instead, bring your smartphone inside mpac+ Dive and enjoy scuba diving and free diving.

D20/D30

※ What is a position holder pad for a smartphone?
The pad holds the smartphone in place within the waterproof case and prevents the smartphone from moving while taking images, which helps to create a high resolution image. Say goodbye to blurred images!
