MANUFACTURING EXCELLENCE

Kamal Healthcare has state of the art Italian machines to produce world class products with a capacity of producing about 100 million diapers per annum. We are sourcing the best available raw materials globally.

The main USP of all our diapers is the **3D core**. The pulp core is designed in 3 dimensional model mixed with SAP (Super absorbent polymer) for better performance. By the virtue of our 3D core design the absorption and rewet are on par with many multinational products. We have designed our diapers in such a fashion to fit the elderly people for having a trouble free lifestyle.

We manufacture all our products in a clean & hygiene atmosphere. We ensure to produce quality product that possesses standards that are safe for the customers. We have a well-qualified technical team that is dedicated to make a World class product.

We are well equipped with high class laboratory to check all our products and maintain the standards as per customer's requirement. We test our diapers by EDANA standards.

- Our products are certified by third party laboratory Sigma for anti-allergic, Anti-fungal & Anti-microbial.
- Raw materials used in our product comply with FDA regulations.
- All our diapers have odour control property.
- We are certified with ISO 9001:2015, ISO 13485:2016, ISO 16603 and CE Marking.
