

XPERON GOLF

Overview

Based on the domestic and international patents on balancing skill of golf balls, the Company has manufactured and distributed dual balancing golf balls that have an exact center. As a result, the Company has been recognized as a company of superior technology and product quality in the leading domestic media and press, and has become a highly regarded company with an excellent reputation.

The Company has developed a ball doctor service machine that prints the correct center of gravity and putting lines on other companies' golf balls (these balls often have skewed gravity centers). The Company is developing this new market and establishing itself as a leader in this segment of the industry.

The company, based on these technologies and know-how, will continue to actively and positively respond to the relevant domestic and international market demand, and make its best efforts to continue to realize these Company values.

Each certificate features a gold medal icon and the KCC logo. The awards are categorized into 'Special Award' (특허증) and 'Excellent Award' (상표등록증). The certificates are for various works, including books, music, and films. The names of the winners and the titles of their works are listed on each certificate. The certificates are signed by the KCC Chairman and the Secretary General.

Main Products

The center of gravity is concentrated towards the surface of the ball –
the backspin control of our ball is superior to conventional balls and accurately follows the target direction.

Products

Xperon III Dual Alignment Xperon III – 3pcs

- High-Reaction ND-BR Core
- Ionomer Inner Mantle by DuPont
- Urethane Cover
- 360 Dimple Pattern

	3PC
Size	42.80mm
Weight	45.5g
Compression Strength	80 ± 5
Type	Distance Type
Driving Distance	★★★★★☆☆
Spin Control	★★★★★★★
Hitting Sense	Soft

Xperon IV

Dual Alignment Xperon IV – 4pcs

- High-Reaction ND-BR Core
- HPF Inner Mantle by DuPont
- Ionomer Inner Mantle by DuPont
- Urethane Cover
- 360 Dimple Pattern

	4PC
Size	42.80mm
Weight	45.5g
Compression Strength	82 ± 5
Type	Distance Type
Driving Distance	★★★★★★★
Spin Control	★★★★★★☆
Hitting Sense	Soft

Xperon Ruby III

Dual Alignment Xperon Ruby III – 3pcs

- High-Reaction ND-BR Core
- Ionomer Inner Mantle by DuPont
- Urethane Cover
- 360 Dimple Pattern
- Color : Pink, Orange, Yellow (come out 1 color in 1 box)

	3PC
Size	42.80mm
Weight	45.5g
Compression Strength	80 ± 5
Type	Distance Type
Driving Distance	★★★★★★☆
Spin Control	★★★★★★★
Hitting Sense	Soft

Pastel III – Matt Colored Ball

Dual Alignment Pastel – 3pcs

- High-Reaction ND-BR Core
- HPF Inner Mantle by DuPont
- 332 Dimple Pattern
- Color : Red, Orange, Yellow, Grapefruit

(come out 4 color in 1 box)

	3PC
Size	42.75mm
Weight	45.5g

Core

A core with ND-BR(ultra high cis polybutadiene) rubber carries a high restitution coefficient and it provides exceptional driving distance.

Inner Mantle

An inner mantle with Surlyn resin provides extra driver distance. In particular, soft middle layer provides excellent driving distance and short-iron spin control at the same time.

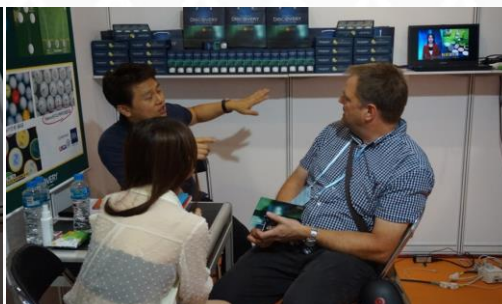

Cover

The cover with DuPont's high-reaction Surlyn resin provides the best driving distance. Relatively lower compression strength of 70 reduces the spin when driven and enables golfers to have a soft feel at impact.
