MEDIBEE Serum' s main ingredient Melittin

The main component of bee venom, MELITTIN,
Mostly comprised of natural active peptides
Melittin, a kind of **natural active peptide**, is the component of bee venom, accounting for 40~50%. With an excellent resistance to harmful substances, **this natural substance greatly improves skin wrinkles, soothes the skin, and controls the sebum.** It is totally nontoxic, and the risk of residue is also low.

Peptide – Essential to skin

- It' s protein component composing our body.
- It' s combats wrinkles.
- It' s a small partice that is excellently absorbed into the skin .

Major Components Besides Melittin

- 1)Royal ielly
–an antioxidant “EXCLUSIVELY QUEEN BEE”
- 2) Adenosine
– a natural wrinkle reducer
- 3) Centella extract
–helpful go get firm pore and control sebum
- 4) Chamomilla Recutita Flower Extract
–Natural Skin Soothing

- STEP1. Open the lid and press it once.
- STEP2. Shake the bottle to mix.
- STEP3. Use after about 1 hour even if mixed well.
- STEP4. Use the mixed serum within a week.

Specially designed container for maximum effect

MEDIBEE Serum is designed to maximize the effect of bee venom’s active ingredient by mixing the powdered bee venom and serum ampoule immediately before use.

The effect of bee venom in the liquid state lasts 7~8 days at the most.

Yellow line– Purified bee venom (Used MEDIBEE Serum) Data sourced from the Korean Society of Analytical Sciences(Chunjin Biotech N CosmeCeu,2016)

*About the graph
Under the normal room temperature condition, the effect of purified bee venom’s active ingredient (melittin) lasts 8 days maximum in the liquid solution state, when it is dissolved in the liquid.

MediBee Serum has manufactured and patented a container for mixing powder and ampoule just before use.

Patent application
10-2020-0000707
Possible to use dual cosmetics
Cosmetic containers

This is why the container of MEDIBEE Serum is designed to let a user mix the bee venom powder and ampoule immediately before use.

The capacity of each container is 8ml so that it could be used for a 7-day period.

Strong anti-oxidants protect skin from aging and loss of elasticity, providing a solid and dense skin
