The beauty of the uncontaminated island of Jeju

J'farm citrus is a cosmetic brand specializes in Korea's unique natural tangerine extracts. J'farm citrus brings you the **uncontaminated island of Jeju**. We use **human-friendly** natural extracts that have been used since the old days. The extracts are highly biodegradable and **environment-friendly**, contributing to the **protection of the environment**.

We would like to bring you the beauty of the uncontaminated island of Jeju.
Experience the true beauty and the nature with J' farm citrus.

≡ ENVIRONMENT-FRIENDLY COMPANY
ECO-ON

Recently, the preference of citrus juice has increased, so the flesh is concentrated and sold, but the citrus peel is used only for a certain portion, and most of it is has been discarded as marine litter.

Accordingly, the natural citrus cosmetic brand, J'farm Citrus has started from the idea that is to turn the citrus peel into a resource by noticing that 50,000 tons of citrus peel each year is thrown away at sea causing environmental pollution.
