If you do not see a part or product that you are looking for please do not hesitate to contact us.

ABOUT RELIABLE:

Reliable aims to offer you an unprecedented 'one-stop' foreign trade experience. Reliable offers direct factory sales of Underfloor Heating parts and systems as well as sourcing, importing and exporting services. We aim to beat any genuine like for like quote for products.

RELIABLE China:

Established in 2005 and located in the Central Business District of Shanghai, this office offers direct factory sales of underfloor heating systems, parts and more. The close relationship that we have with factories (as well as maintaining our own factory) will allow you to take advantage of cheap prices and a deep understanding of the market. We already supply to a number of high profile customers in the UK and have done so for a number of years. You can be safe in the knowledge that previous customers include such brand names as Philips, Henrad and many more.

RELIABLE UK:

Established in 2013 and located in Nottingham, this European headquarters allows our customers to conduct business with us during UK trading hours. This office was set up in order to enable us to provide high levels of customer service from British staff to our customers. Thus enabling our customers to communicate their requests fluently and precisely at times that suit them.

Our Factory:

Our factory has been creating top quality materials for over twenty years. We are one of the leading manufacturers of underfloor heating products in China. We already provide our products and services to a number of high profile European companies.

Why Choose Us:

Harness the benefits of trading with China without compromising on quality or service. We aim to be a transparent and efficient trading company that provide a large number of services. Whether we are sourcing products from China for you, importing your goods or selling materials direct to you – you should always expect the highest levels of service from us:

No Trading Barriers

It is well known that when sourcing or importing goods from China there are many barriers to trade:

- Culture
- Language
- A different business and legal landscape

Reliable UK will help you to cut through all of these barriers and take advantage of all the benefits you can gain when you source from China.

Free Factory Inspection

We understand that potential customers may have concerns about the quality of goods sourced in China. While we can guarantee high levels of quality for the goods that we product in our factory; how can you be sure about the quality of sourced goods?

This is why Reliable offers free quality checking of factory facilities and products throughout the entire process of sourcing from China until it arrives safely at your doorstep.

Senior Technicians In Charge of Quality Control

Our technicians are there to help ensure the quality of goods and solve any technical difficulties before they arise. In our Chinese factory we have engineers who specialize in product design and have years of experience.

Warehouses in the UK and Great Customer Service

- We have warehouses in the UK that can provide fast immediate dispatch of certain items.
- Excellent, clear and efficient customer service with emails answered properly and in detail- no canned responses.
- Clear and constant updates on the status of your order.
- When you call, you will immediately be placed through to a member of staff- No need to press 1, 2 or 3 or wrestle with a machine.
