

The World's One & Only
Portable Water Purifier

RIPURI

Save Earth, Save Us

Tap water is not “Safe” !

Too Much Chlorine to Disinfect Polluted Water

Rust-filled Old Drinking Water Pipe

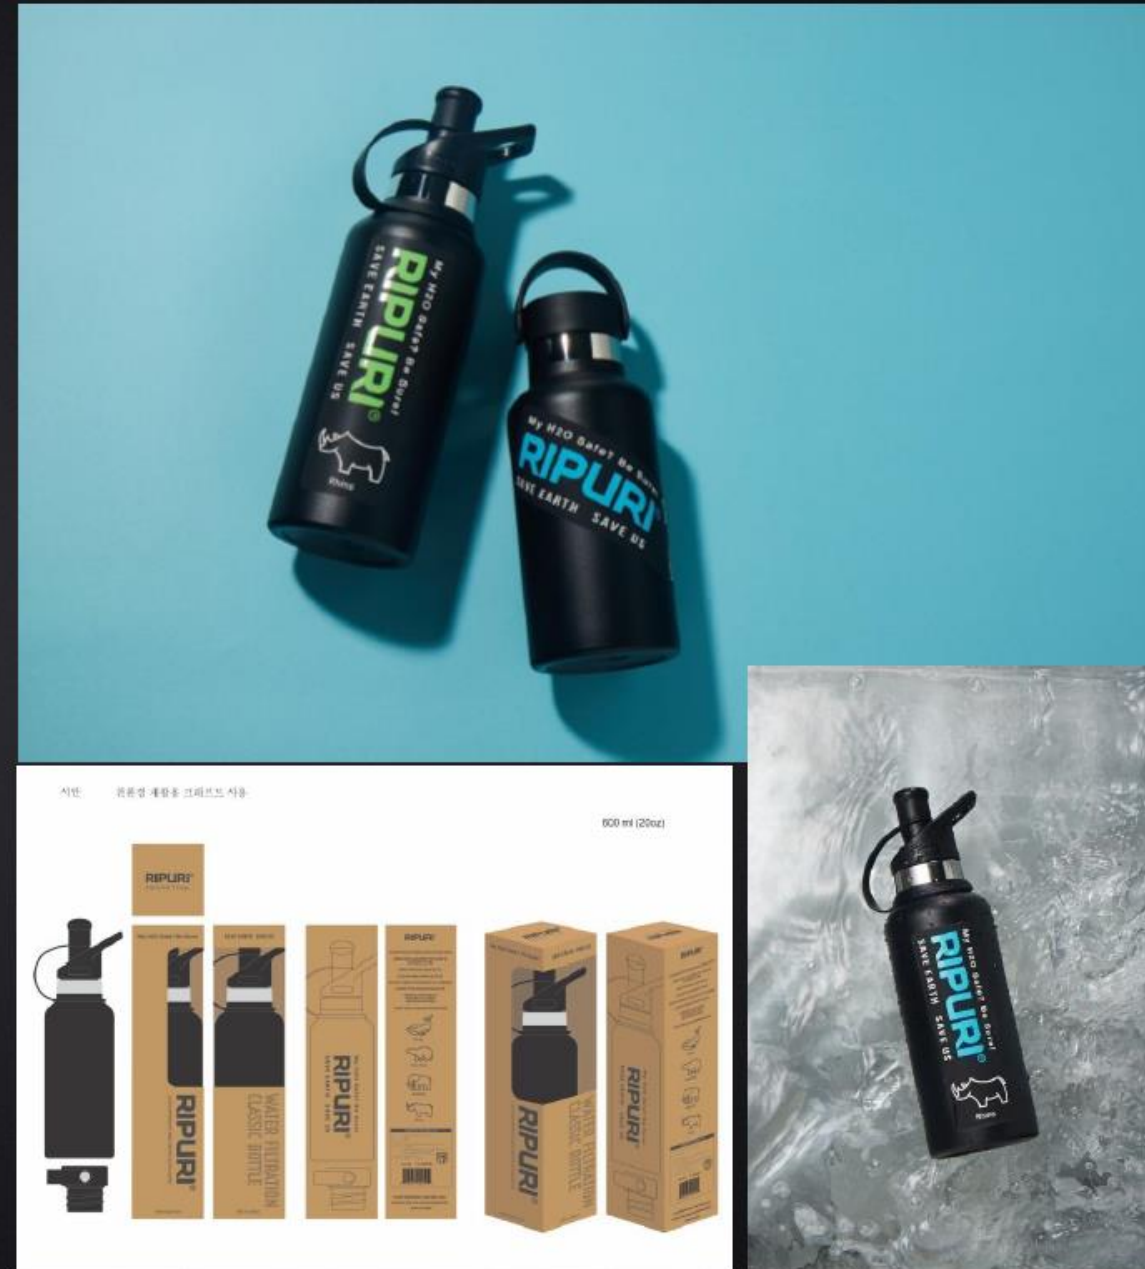

RIPURI Water Purifier

Powerful
Water Filtration Function

**Non-Toxic Eco &
Eco-Friendly**

Materials

World's 1st & Only
Stainless Steel Portable Water Purifier

Powerful Water Filtration Function

Thick 10mm Carbon Block Replacement Filter Cartridge is **twice as thick as** other equivalent filters and it's filtration capacity and speed are **incomparably superior to** others.

RIPURI Filter Cartridge with it's elements in PM 0.5 can

- (1) remove particulates, chlorine, volatile organic compounds (VOCs), and smell induction materials to improve the taste of water
- (2) dissolves organic and inorganic impurities, and
- (3) reduces viruses and bacteria.

High Efficiency Water Filter

Developed by **Handok Clean Tech**

(World No. 1 Water Filter Manufacturer)

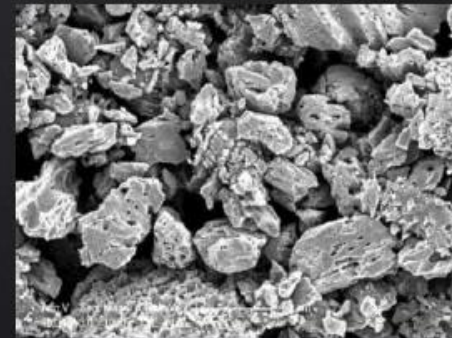

Only for **RIPURI**

High Quality Raw Materials

Carbon Block : Made in Japan 

Binder : Made in Germany 

Handok's high performance polymer binder is not coated on the filter surface so does not clog the filter and guarantees long and constant function of the filter.

TC-F300 Carbon Block Filter

TC-PF300C
Carbon Block +
Nanotrap™

This innovative filter using electromagnetic forces has a large surface area and contains Nano-fiber (effectively reduces bio-fouling materials such as cell debris, bacteria, viruses, etc.) with a patented Electrospun coating (Nano Alumina Fiber).

Furthermore, the enhanced performance and high-turbidity elimination process increases the water flow rate. (Nanotrap is normally used in electric desktop water purifier at home or workplace, not for the bottle)

Two Types of Filters

RIPURI PRO Pump (Coming Soon)

RIPURI Vacuum

Powerful
Water Filtration
Function

BRITA

RIPURI Filters are twice bigger than other products' and purify twice more water than others do.

(Water Filtration Capacity : RIPURI 300 L VS BRITA 151 L)

BRITA | 590 ML

World's **First & Only** **Stainless Steel** Portable Water Purifier

Durable !!!!
Non-Toxic !!
BPA Free !!!

1. RIPURI's body is made of **the first grade(18-8) stainless steel** which guarantees durable, eco-friendly, and semi-permanent use.
2. Even some plastic parts of RIPURI such as outlet and cap are made of **BPA-Free Silicone and PE, raw materials of baby bottle**.
3. Black powder coating was adopted for color consistency, surface durability, concealing surface flaws, and scratch and ding resistance.

600 Bottles

No more expensive and wasteful plastic bottles RIPURI lets you help save the Earth's balance while giving you healthy water that will make your life easier and better!

One **RIPURI** Filter Cartridge can replace 600 bottles of water, can save up to 300 USD.

Besides, you can change the cartridge at any time.

@**RIPURI**

Portable Water Purifier

Keeps Drinks Cold for 24 Hours
Hot for 12 Hours

How to use RIPURI Portable Water Purifier

Remove all the stickers, labels,
and packaging materials

Fill the bottle with any tap
water

Insert "filter cartridge + cap"
into the bottle and twist close

Clean the filter cartridge with
flowing tap water for 30 seconds

Combine filter cartridge with cap

Enjoy Fresh Water

Fancy Stickers for Private Use

Easy to Attach and Detach
