

about **Magconn®**

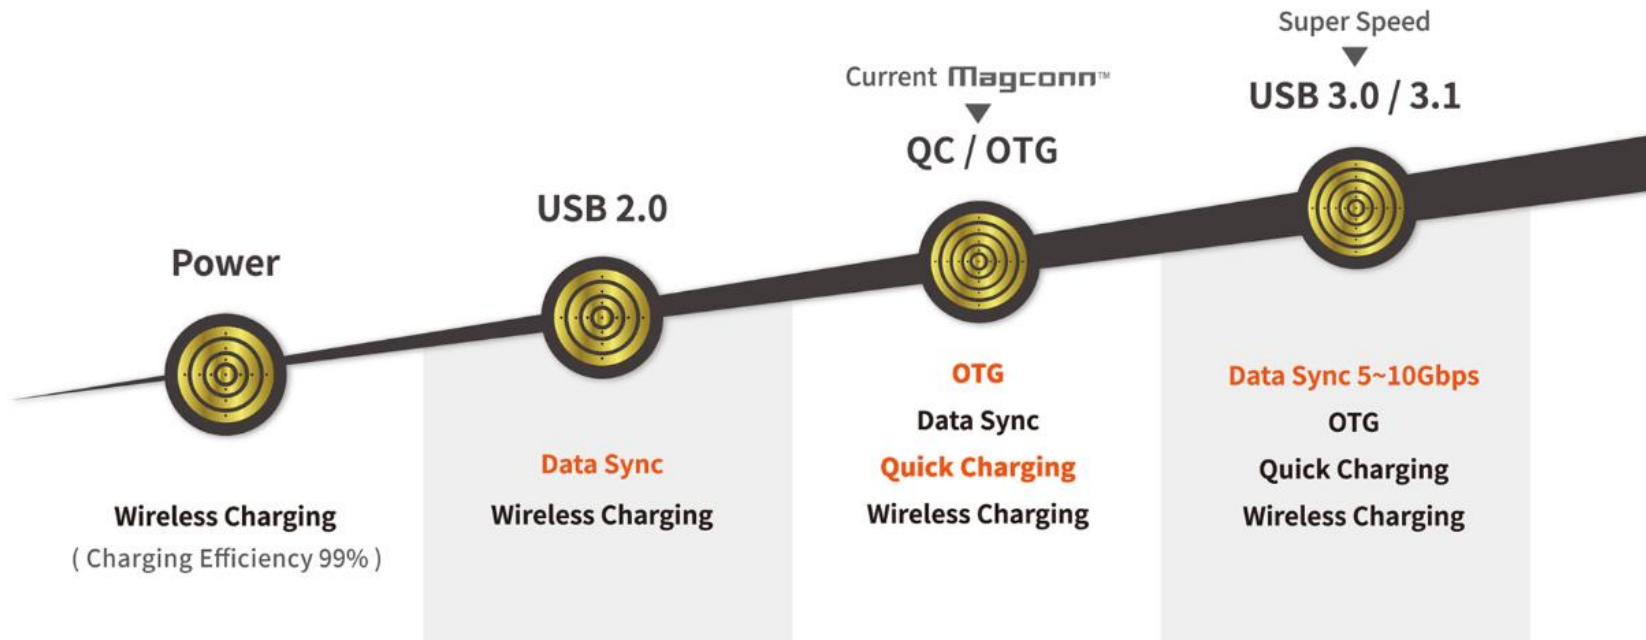

Best solution to Energy-Efficient wireless charging and data sync with No Heating issue and the simple & smart technology that automatically aligns the location through its magnetic connection

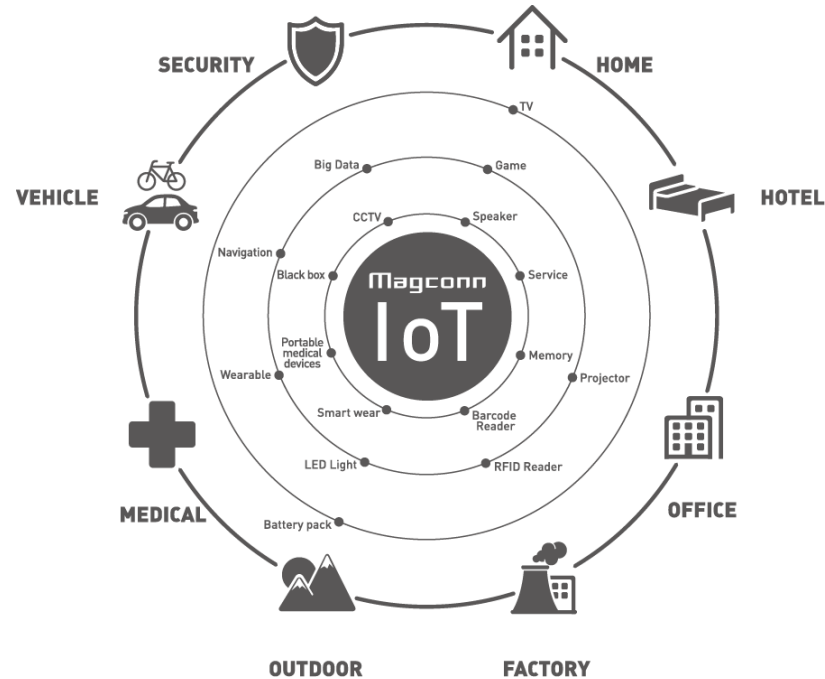

Competitors	Magconn
Charging only	Charging & data sync
30% energy loss Heating issue	No energy loss No heating issue Quick charging
Charging at specific angles	Charge and sync rotating 360°
High price	Affordable price
Unproven technology from electromagnetic field	No harmful technology from electromagnetic field

Magnetic Wireless Charging & Data Transfer & OTG Solution

Magconn Technology evolves to Super Speed !!

Magconn application products.

Magconn technology can be applied to various mobile devices such as smartphone, Tablet PC, camera, wearable watch, power bank, scanner, phone case/accessories, etc.

Modern design and Innovative engineering solution

Waterproof

Magconn RX meets is IP68 max.

Dustproof

Magconn RX meets is IP68 max.

Rotating 360°

Long life cycle

Up to 50,000 cycles.

Smart Phone

Tablet PC

Scanner (RFID/Barcode)

Bike Light & GPS Tracker

Action Camera

VR Glass Controller & Charger

Outdoor Jacket (smart heating solution)

Tplatform (Tablet Management Cabinet)

Magconn Dongle

Phone Case

Power Bank

Car Charger

Charging Stand

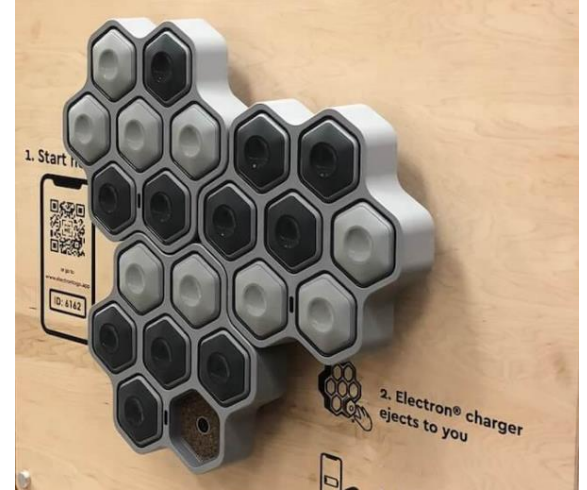

Magconn Cable

Castaway Searching Device

Medical Device

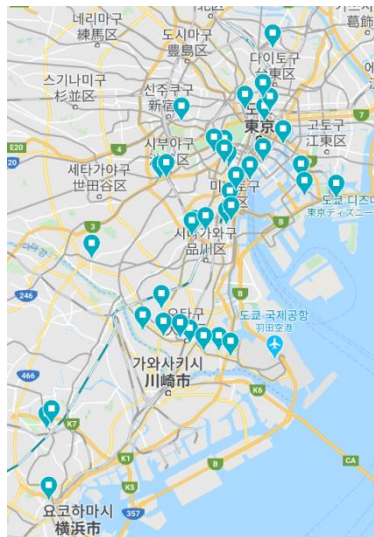

Public Charging powerbank service

Magconn Tablet & Wall Mount System for Smart Home / Residential Control System (IoT system)

Self Order System

Huawei MediaPad T5

- Released 2018, September
- 460g, 7.8mm thickness
- Android 8.0: EMUI 8
- 16GB/32GB storage, microSD slot

10.1"
1920x1200 pixels

5MP
1080p

Magconn is a
conductive wireless charging
and data sync technology
with an automatically pinpointing
magnetic connection capability.

Thank you !
