TRANSPORTADORES DE CADENA

CHAIN CONVEYORS

DESCRIPCIÓN

Los transportadores son ideales para el transporte a largas distancias tanto de harinas como de productos de grano grueso y fino; tales como astillas de madera, cementos, áridos, así como material alimentario tal como piensos granulados o finos, cacahuetes, café, teína, soja, arroz.... Además del transporte horizontal, también permite el transporte inclinado.

Según sus dimensiones y su uso existen 2 modelos: HP - TRD (arrastre con cadena redler) y HP - TGR (arrastre con cadena redler con paletas de polietileno).

DESCRIPTION

Chain conveyors are designed to transport material for long distances, like flour or coarse and fine grain (wood, cement, aggregates) or food material (such as granulated or fine feedstuffs, peanuts, coffee, bean, soy, rice ...). In addition to horizontal transport, it allows bended transport.

According to its dimensions and its use, there are two models: HP - TRD (to drag with redler chain) and HP - TGR (to drag with redler chain with polyethylene pallets).

ADVANTATGES

Easy maintenance.

Minimum deterioration of material.

Wide range of applications for many type of products.

Safe transport of bulk material.

Completely enclosed casing for inclement weather or environment.

These conveyors do not produce suspension materials or powder during transportation.

OPTIONS

Wide variety of connections.

Performance according to need.

Cover with fast opening and easy cleaning..

Designed according to normative ATEX.

For food industry.

With double or simple chain.

Frequency inverter.

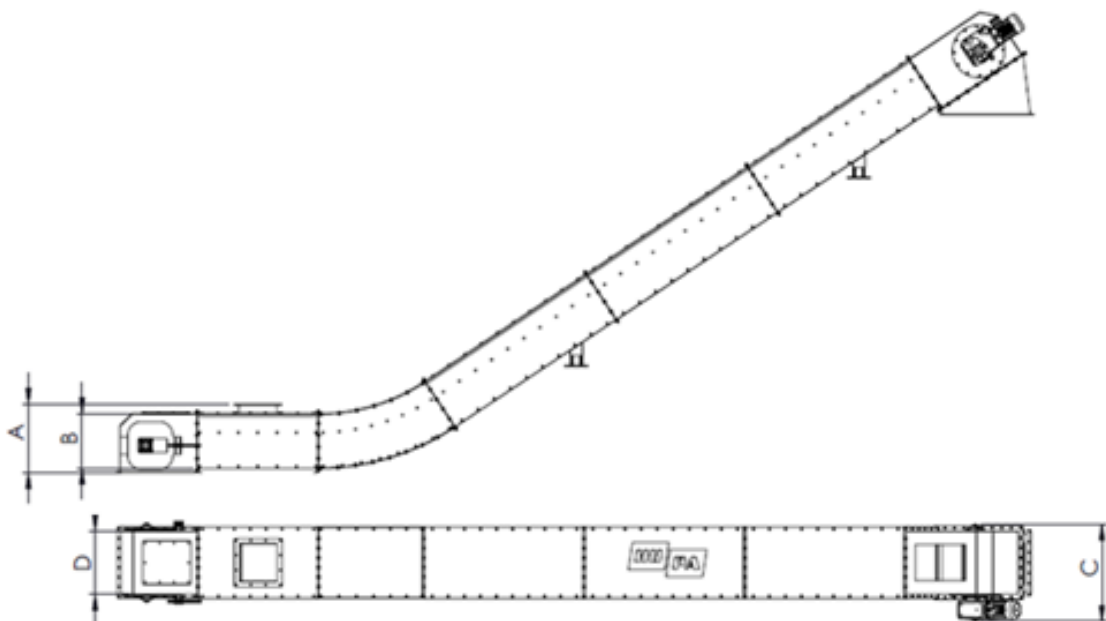

Control panel.

Different finished types: galvanized
stainless steel or painted, wearing
material...

REDLER CHAIN CONVEYOR

TYPE	A	B	C	D	CAPACITY (tn/h)
HP - TRD - 170	180	150	260	170	13
HP - TRD - 210	225	180	325	210	26
HP - TRD - 250	265	215	385	250	80
HP - TRD - 300	321	255	465	300	133

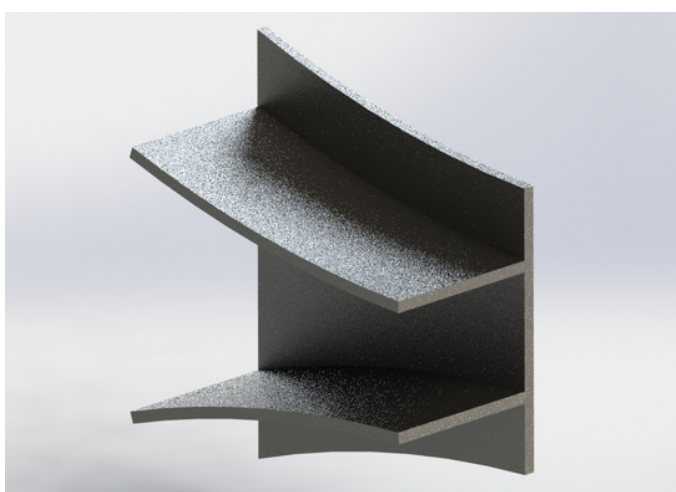

COMPONENTES

Ejemplos de los componentes que conforman el modelo HP-TRD.

COMPONENTS

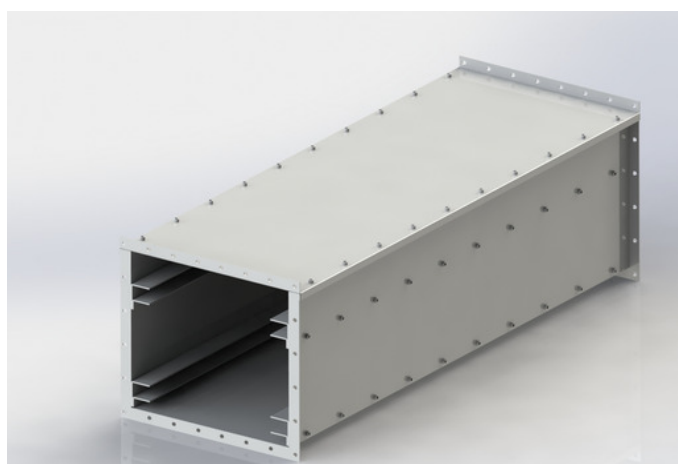

There are some examples of the components that make up de HP – TRD model.

Detalle carril cadena

Cadena doble con palas rectangulares de acero

Cuerpo HP –TTGR de chapa galvanizada
